

Dear Partners, Dear All,

Grenoble Airport has been operating a terminal entirely dedicated to General Aviation since Winter season 2007-2008. Grenoble airport is very close to all regional business centres and to all major ski resorts in the French Alps and is surely the best option after our partner airport: Chambéry (we have the same management). For instance Courchevel is less than 1h55 away by car (with less potential congestion on the road than neighbours airports) or 20 minutes by helicopter. Last year GNB faced some capacity constraints during the weekends. This year we have developed new facilities and modified our procedures to be able to accept a lot more GA flights even on peak days.

### **GRENOBLE COMPETITIVE ADVANTAGES**
